**AIS-125 CERTIFIED AMBULANCE STRETCHER**  
**MODEL : AST-BOLERO**

# AIS-125 CERTIFIED AMBULANCE STRETCHER

## MODEL: AST-BOLERO

### Technical Data

Length : 1850 mm

Structural Material : Mild Steel

Width : 550 mm

Safe working load : 160 Kg.

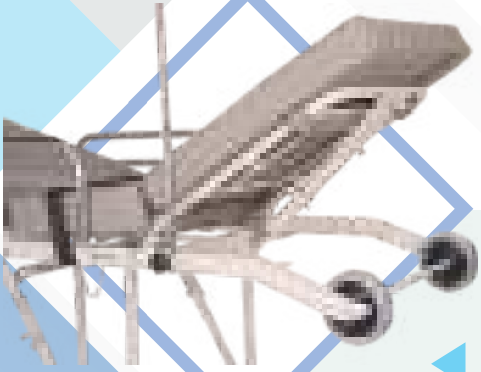

Wheel diameter : 125 mm

Removable Side Railing : Yes

Brakes : On rear wheels

I.V Rod : Yes (1nos.)

## FEATURES

### Back rest with 5 fixing positions

The backrest can be easily adjusted to 5 different positions as per the patient's requirement. Designed to bring the backrest to flat position quickly for performing CPR.

### Provision for leg rest elevation

Adjustment for easy elevation of leg rest to create semi-fowler position. Provision is as per AIS-125 standard.

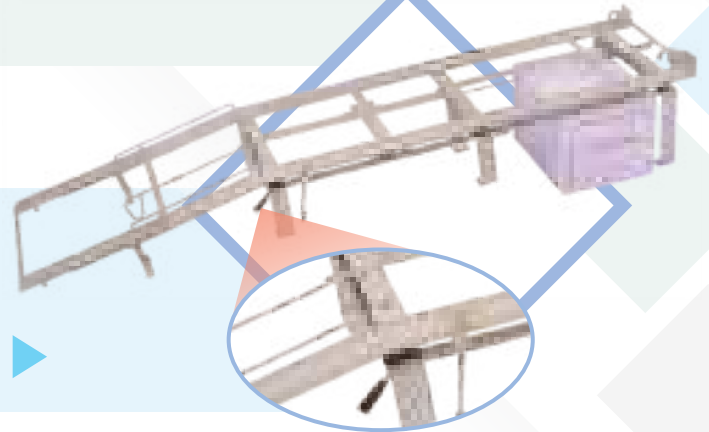

### Castor wheels with brake

Side brake provision for easy locking and un-locking of stretcher wheels to arrest stretcher movement.

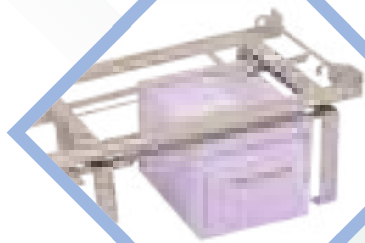

### Sideways sliding provision for unobstructed stretcher ingress and egress

Provision for sideways sliding of stretcher to facilitate ingress and egress of stretcher without obstructing the vehicle's D-pillar.

### Optional accessory : First-aid box

A sturdily built first-aid box can be fitted as an optional accessory to the locking base if required. The first aid box is made of steel and powder coated to ensure rust resistance.
